

Around the fire with our tribe

When it's cold
When storms are raging outside

Time to connect deeply
Time to be with our tribe

When the flowers blossom
When you're enjoying high tide

Time to celebrate and dance
Time to be with our tribe

When you're surrounded by fears
When your exhausted from tears
When you can't sleep because of stress
And so many things feel like a mess

Remember we are not alone
We don't have to do it all on our own
We're in this together
It's time to gather
Reconnect to the flow

Live the vibe
Time to share and let the fire grow

Time to be
with our tribe
